Medical/Surgical Skills Checklist

Name _____
Last First Middle

☐ RN ☐ LPN/LVN ☐ Other _____

Directions: Please check the column that most accurately describes your proficiency level.

	EXPERIENCE			
	Never Performed	Familiar With	Experienced In	Well Skilled
	A	B	C	D
PRECAUTIONS				
Regular Isolation				
Reverse Isolation				
Enteric Isolation				
Respiratory Isolation				
Wound and Skin Isolation				
Universal Precautions				
MEDICATIONS				
Unit Dose				
Administer Medication for 1-10 Patients				
Administer Medication for 10-20 Patients				
Pediatric Conversions				
IM Injections				
Subcutaneous Injections				
I.V. THERAPY				
Venipuncture				
I.V. Certified ☐Yes ☐No				
Heparin Locks				
Initiating I.V. Lines				
Central Lines & Dressing Changes				
Infusion Pumps				
Hanging Blood and Blood Products				
Care of a Cutdown				
Administration of IVPB				
IV Additives				
Intralipid Administration				
Hyperalimentation Administration				

	Experience			
	Never Performed	Familiar With	Experienced In	Well Skilled
	A	B	C	D
I.V. Meds				
Calculation/Administration of:				
Aminophylline				
Dopamine				
Lidocaine				
Pitressin				
Isuprel				
Chemotherapy				
Nipride				
Lanoxin				
Lasix				
Burnex				
Morphine				
Demerol				
Decadron				
Valium				
Librium				
Dilantin				
RESPIRATORY				
Auscultating Breath Sounds				
O_2 Mask				
O_2 Cannula				
Venturi Mask				
Ambu Bags				
O_2 Cylinders				
Nebulizer Set Up				
Suction				
Oropharyngeal				
Nasopharyngeal				
Tracheotomy				
Trach Tube				
T-Piece				
Assisting with Intubation				
Assisting with Extubation				
Obtaining Arterial Blood Gases				
Radial Artery				
Brachial Artery				
Femoral Artery				
Arterial Line				
Interpretation of Blood Gases				
Assisting with Chest Tube Insertion				
Use of Chest Tube Drainage Systems				
Type_____				

	Experience			
	Never Performed	Familiar With	Experienced In	Well Skilled
	A	B	C	D
Care of Patient with:				
Pulmonary Edema				
COPD				
ARDS				
Pneumothorax				
GASTROINTESTINAL				
Auscultate Bowel Sounds				
Colostomy Care				
Gastric Lavage				
G.I. Tubes				
Nasogastric				
Miller-Abbott				
Blakemore				
Care of the Patient with:				
G.I. Bleed				
Abdominal Wounds				
Acute Abdominal Disorders				
Esophogeal Vorices				
GENITOURINARY				
Catheters				
Foley Insertion				
3-Way Foley				
Suprapubic				
ORTHOPEDICS				
Circo-Electric Bed				
Crutchfield Traction				
Balanced Traction				
Cast Care				
Neurological Checks				
CARDIAC				
Auscultate Heart Sounds				
Cardiac Monitoring				
Recognizing Arrhythmias				
Obtaining 12 Lead EKGs				
Cardiopulmonary Arrest				
Resuscitation				
Administration of Code Drugs				
CARE OF PATIENT WITH:				
Acute MI				
Drug Overdose				
Cancer				
Emphysema				
Asthma				

CARE OF PATIENT CONTINUED:

	EXPERIENCE			
	NEVER PERFORMED	FAMILIAR WITH	EXPERIENCED IN	WELL SKILLED
	A	B	C	D
COPD				
Pulmonary Edema				
Diabetes				
Renal Failure				
Hemodialysis				
Peritoneal Dialysis				
Cirrhosis of Liver				
Hepatic Encephalopathy				
Decubitus Ulcers				
Hypothyroidism				
Hyperthyroidism				
Femoral Bypass (Vascular) Procedures				
Psychiatric Disorders				
Gun Shot Wounds				
Stab Wounds				
Impending DT's
